

Shashwat Sinha

Data Analyst | DVA Specialist

Newton School of Technology × Rishihood University | shashwat.sinha2024@nst.rishihood.edu.in | linkedin.com/in/shashwatsinha21 | github.com/ShashwatSinha03

SUMMARY

Data Analyst specialising in KPI design, Tableau dashboarding, and Python-based EDA. Built a food delivery analytics capstone (Swiggy, Jan–Aug 2025) on 91,788 orders across 28 cities; designed 6 core KPIs and delivered 3 interactive business dashboards covering revenue, pricing strategy, and temporal customer segmentation.

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL
Visualisation: Tableau Public, Matplotlib, Seaborn
Tools: Jupyter Notebook, Google Colab, GitHub, MS Excel
Analytics: KPI Design, EDA, ETL, Data Cleaning, Business Reporting, Pricing Strategy

PROJECTS

KPI Designer & Tableau Dashboard Developer | Swiggy Food 2026 | Academic Capstone
Orders Analytics

- Designed 6 core KPIs — Total Orders (78,527), Total Revenue (₹1.93 Cr), Avg Price (₹245.40), Avg Rating (4.31/5), % Premium Orders (11.2%), Peak Day (Saturday) — from 91,788 records across 28 cities.
- Built D1 Executive Overview: 4 KPI cards, Top 5 Cities bar chart, Orders by Price Bucket pie chart; 5 cross-dashboard slicers (State, City, Category, Price Bucket, Date Range).
- Built D2 Restaurant & Price Analytics: Price vs Rating scatter with Optimal Price-Quality Zone annotation; Budget/Mid-Range/Premium segment cards; restaurant performance table (McDonald's 7,129 orders, KFC 6,705).
- Built D3 Temporal Patterns & Segments: Day-of-Week bar (peak Saturday 11,568), Month Trend Jan–Aug 2025, Top Categories (Desserts 1,599), segment strategy cards with peak-hour targeting per tier.
- Delivered segment-level business recommendations: Budget (daily discounts, Mon–Wed promotions), Mid-Range (subscription + cross-sell), Premium (special occasions, upscale restaurant focus).

EDUCATION

B.Tech — Computer Science (Data Science) | Newton School of Technology × Rishihood University 2024 – Present | Sonipat

- Relevant coursework: Data Structures, DBMS, Statistics, Machine Learning, Data Visualisation & Analytics (DVA).
- Capstone: End-to-end pipeline — data ingestion, cleaning, EDA, statistical analysis, KPI framework design, Tableau dashboarding.

CORE COMPETENCIES

KPI Framework Design • Tableau Dashboard Architecture • Data Storytelling • ETL Pipeline • Python EDA • Pricing & Segmentation Analysis • Business Reporting • GitHub Version Control
